

50-150m depth.
 - move in summer
 - colder, but same S as Bering Strait (Polygya yeasans)
 → East + North
 into Arctic

~ 0.8 Sv
 Herald Canyon highly seasonal
 Central Channel
 Herald Canyon highly seasonal
 Herald Canyon highly seasonal

Flow Driving
 $Flow = P_h + const \times Wind$
 Pressure head
 Seasonal + interannual variation?

→ Hi spatial coherence.
 ocean takes on atmospheric length scales
